✓ Download and installation successful
You can now load the package via spacy.load('en_core_web_sm')
⚠ Restart to reload dependencies
If you are in a Jupyter or Colab notebook, you may need to restart Python in
order to load all the package's dependencies. You can do this by selecting the
'Restart kernel' or 'Restart runtime' option.
```

```
import spacy
from spacy import displacy
import pandas as pd

# Load model
nlp = spacy.load('en_core_web_sm')
print('Model loaded successfully')
```

```
Model loaded successfully
